

PAUL ROTHERA  
Artist

*Session Seven*

What makes a great watercolour painting truly memorable? In this class we will explore four important elements that contribute to successful and expressive paintings: narrative, composition, values and focus, and colour register. We will study an inspiring example of a finished watercolour and discuss how these elements work together to create a strong painting. A short demonstration using a simpler subject will then show how these ideas can be applied in practice, helping you to think more carefully about your own work.
