

---

In this session we will explore a variety of techniques for painting skies in watercolour, from bright and uplifting summer scenes to dramatic, moody cloud formations. The sky often sets the mood of a painting and can have a significant impact on the overall composition. Following a short demonstration, you will learn how to control the balance of water and pigment to achieve smooth washes, soft transitions, and expressive cloud effects. We will also discuss colour choices and how they influence atmosphere and light. This class provides an excellent opportunity to develop confidence in creating skies that enhance and strengthen your paintings.
